LR

Jan

ALL WILL DO A 75
MINUTE VERSION OF HIS
STANDARD BRIEFING, DAILY-
ALL NOTICES.

TAL

11 MAY
(DATE)

11 May 1970

Special Assistant - O/DIR

State Department Visitors - Wednesday, ¹³~~12~~ May (1430 hrs)

AT [redacted] Dep. Dir., Functional Research, Bureau of ^{Intelligence}~~Functional Research~~
Dir., Office of Strategic and Functional Research

AT [redacted] Strategic Intell Division

AT [redacted] Dept. of State Liaison Officer to Joint Recon. Ctr. (JCS)

These gentlemen are interested in the following:

1. Present and future programs and capabilities of the Center.
 2. The production of dimensional, scale-models.
How they are made? - from what source materials? - advantages to building and using these products? Apparently, one or more of these gents have seen our models and was impressed.
- Not interested in historical or organizational data.
 - Request approximately 90 minutes of our time.
 - Will be chauffeured - no parking space required.
 - Am checking with Security Branch on clearances.
 - Will keep you informed of any changes or new developments.
 - Will inform PSG.

STAT

[redacted]
I was pleased to learn from [redacted] of your interest in our Washington Presentation Center.

STAT

This educational presentation has been especially developed to provide selected members of the Federal Government (members of Congress, key individuals from the Executive and Independent agencies) and other interested professional groups and individuals with a basic understanding of computers and their role in society. It is aimed at those individuals not involved in procurement or in the day-to-day use of computers. The program attempts to answer three basic questions:

What is a computer?

How does it work?

How does man relate to the computer in using it to accomplish his purposes?

This is an educational experience and not a machine demonstration. It presumes no prior knowledge of computers. While specific application areas are not pursued in depth, the session does include a general discussion of many aspects of present computer usage.

Attendance at the program is limited and is scheduled in advance. The format of this single session is such that attendance at the entire session is necessary in order to acquire a basic understanding of computers.

I would like to confirm with you my invitation to [redacted] to have you and nineteen of your associates attend such a presentation for your group on Wednesday, April 29, 1970 at the Washington Presentation Center, 1220-19th Street, N. W., third floor. It begins at 9 a.m. and ends at 2 p.m. A
